

Trent Jones Cashen Course

COURSE RATING

BLUE	WHITE	GREEN	RED
71	70	69	71

The 11th, a 146-yard par 3 sits into the sandhill like it has been there forever

The 10th, a 324-yard par 4 is a beautifully designed three-tiered green with the Atlantic Ocean as its backdrop.

Rated in the top 100 by Golf Magazine, the vast majority of Cashen's green positions have been copied by many new course designers. Spectacular and supremely challenging, what can never be copied is the majestic landscape and fresh sea air that is distinctly part of the Ballybunion experience.

Trent Jones Cashen Course

6306 yds

Designed by Robert Trent Jones Snr.

"It was the finest piece of links-land that I had ever seen, and perhaps the finest piece of links-land in the world"

Robert Trent Jones

*D*esigned by Robert Trent Jones, Senior, and first opened for play in 1982, the Trent-Jones Cashen Course is Ballybunion's magnificent new course, located among amazingly high sand dunes at the mouth of the River Cashen.

On seeing the site of the new course for the first time, Robert Trent Jones said: "When I first saw the land chosen I was thrilled beyond words. I said that it was the finest piece of links land that I had ever seen, and perhaps the finest piece of links land in the world. With the ocean on one side and the river on the other, its tumbling, undulating, free-flowing rhythm of line is beauty beyond description."

To say the course looks natural in its setting is to do it an injustice. The course flows with the land and uses the natural contours to full potential. This is a dateless golf course which after playing makes you ask yourself if you've ever played amid quite such surroundings.

The Clubhouse, Ballybunion

The 16th, a 164-yard par 3 assures you of a beautiful visual backdrop where the River Shannon meets the Atlantic Ocean.
